

## BHF Centre of Research Excellence

Division of Cardiovascular Medicine,  
Radcliffe Department of Medicine,  
University of Oxford,  
Level 6, West Wing,  
John Radcliffe Hospital,  
Oxford, OX3 9DU, UK

### Oxford BHF CRE Annual Research Symposium 2022 on Wednesday 23rd November

Venue: Oxford Town Hall, St Aldates.

### Call for poster abstracts, deadline Tuesday 18<sup>th</sup> October 2022 (12noon)

#### Poster abstract submission guidelines

- Abstracts must be submitted using the [Word template](#) provided, limited to one A4 page. Please adhere to the set margins and font size, and submit as a Word document (not PDF)
- State the abstract title, followed by authors' names and departmental affiliations
- Indicate the presenting author using an asterisk and whether they are a DPhil student or postdoc and whether clinical / non-clinical
- Abstracts should include these clearly identified sections: *research rationale* (written for a non-specialist audience), *methodology*, *results* and *conclusions*
- Citations in the text should be numbered sequentially and kept to a minimum
- A figure should be included if appropriate
- We encourage the inclusion of a graphical abstract, which is a single-panel image designed to give non-specialised readers an immediate understanding of the poster's take-home message
- Email abstracts to [BHFCREabstracts@rdm.ox.ac.uk](mailto:BHFCREabstracts@rdm.ox.ac.uk)

Abstracts are selected for poster presentations and/or short presentations on the basis of quality and overall balance shown across the [BHF CRE Four Themes](#).

Selected poster authors will be invited to present their posters to the judges during the week commencing 7<sup>th</sup> November (virtual meetings) and a number of poster authors will be selected to give brief oral presentations of their poster as part of the in-person symposium on 23rd November 2022, in addition to presenting their poster.

Abstract authors are asked to indicate whether they would like to be considered for a short talk (see abstract template).

We are limited in the number of posters we can review and display and request that within large research groups there is a selection process, so that a maximum of 2 abstracts in total are submitted from the group (3 in exceptional circumstances).

Symposium posters are judged by the following criteria:

- Innovation and impact of the research presented
- Excellence of presentation of the work and results
- Clarity of discussion between the presenting author and the poster judges

***There will be prizes for graduate student and non-student poster categories.***

Any questions should be directed to [Philippa Major](#) or [Kate Forbes](#)
